

100mm bowl mount for maximum compatibility with a wide range of ENG and EFP heads

Unique leg-lock mechanism eliminates the need for spreaders

Capture the lowest of low angles with a minimum height of just 139mm (5.5")

Three-stage design for high portability

# TT-66

## 100mm Bowl Spreaderless Tripods

Utilizing a 3-step mechanism near the bowl, the TT-66 tripod series is for operators who like things simple. A unique tube design allows for silent and secure locking and unlocking.
