

TE-23D

Heavy-Duty Studio / OB Head

PRODUCT

Similar to the SG900, the TE-23D is equipped with the Reulaux perfect balance system making smooth, perfectly balanced professional tilts not only possible, but incredibly easy. Simple adjustment of the counterbalance knob is all it takes to achieve perfect camera balance regardless of the payload.

The TE-23D supports 60kg (132.2lbs) and is ideal for all Studio and OB set-ups including heavy box lenses with teleprompters and talent monitors. The head also features Viscam drag technology, our unique continuously adjustable fluid drag system, making every pan and tilt motion silky smooth from start to finish.
